BRINGING SYNERGY TO THE PAST, THE PRESENT, AND THE FUTURE

Phoenix Contract specializes in durable, easy to maintain furniture specifically designed for the institutional and governmental markets and the special needs of its customers.

Product Design and Performance:

Phoenix Contract strives to respond to the desires and needs of the institutional customer. A recent trend has been toward "home-like" designs. We offer several product lines that emphasize **form** while maintaining our high standard for **function**. Although we are very sensitive to design, we emphasize performance. We believe good design is a compatible blend of good function **and** good aesthetics.

Product Innovation and Furniture Maintainability:

Phoenix Contract cushions are locked into place and are removed easily by authorized personnel with the use of a special tool. This simple method for removing and reversing cushions is offered exclusively by **Phoenix Contract**.

Product Construction and Specifications:

Attention to detail during construction of seating and tables is crucial to product durability and long-term value.

Fire Codes:

We have extensive experience with the various fire retarding materials and related codes. We meet California's TB #117 as a standard and will certify to TB #133 on request by using foams and fabrics capable of passing those more stringent parameters.

This catalog/price list reflects the most recent additions to the **Phoenix Contract** collection as of this printing. We are continually updating and expanding our collection to offer a product line with the depth and breadth for addressing most institutional applications.
